

## CHECKLIST OF CHARACTERISTICS OF YOUTH WHO HAVE CAUSED SCHOOL-ASSOCIATED VIOLENT DEATHS

The [National School Safety Center](#) offers the following checklist derived from tracking school-associated violent deaths in the United States from July 1992 to the present. Follow this link to the [School Associated Violent Deaths Report](#). After studying common characteristics of youngsters who have caused such deaths, NSSC has identified the following behaviors, which could indicate a youth's potential for harming him/herself or others.

Accounts of these tragic incidents repeatedly indicate that in most cases, a troubled youth has demonstrated or has talked to others about problems with bullying and feelings of isolation, anger, depression and frustration. While there is no foolproof system for identifying potentially dangerous students who may harm themselves and/or others, this checklist provides a starting point.

These characteristics should serve to alert school administrators, teachers and support staff to address needs of troubled students through meetings with parents, provision of school counseling, guidance and mentoring services, as well as referrals to appropriate community health/social services and law enforcement personnel. Further, such behavior should also provide an early warning signal that safe school plans and crisis prevention/intervention procedures must be in place to protect the health and safety of all school students and staff members so that schools remain safe havens for learning.

1. \_\_\_\_\_ Has a history of tantrums and uncontrollable angry outbursts.
2. \_\_\_\_\_ Characteristically resorts to name calling, cursing or abusive language.
3. \_\_\_\_\_ Habitually makes violent threats when angry.
4. \_\_\_\_\_ Has previously brought a weapon to school
5. \_\_\_\_\_ Has a background of serious disciplinary problems at school and in the community.
