

Hopkins School Parent Pick Up Procedures

Hopkins School has worked with Officer Powers (Hopkins School Resource Officer) to develop our parent pick up procedures. The goal is always to ensure **student safety**. A Hopkins staff member will stop in at every car to verify identification of the adult picking up the students, and the order of pick ups. Parents should wait in their cars in the parent pick up line (outlined with arrows). A Hopkins staff member will dismiss students to the cars/parents. As cars pull away, the line should pull up. As cars pull away, please be cognizant of other cars and buses moving throughout the driveway and Loop Road.

1. Please follow the parent pick up traffic flow (outlined with arrows). Please do not block handicap access ramps
2. Hopkins will bring students out to cars in the order cars are lined up.
3. The parent pick up line will begin at the star shape.
4. If the traffic extends past the allotted space, I am asking parents to **pull far to the right of the driveway to allow bus traffic to pass. Please do not block the bus access road**, as our waiting buses will be queued here waiting for the second round of bus departures.
